Chinese Olympians successful training camp in Leeds

The city of Leeds hosted China, the most successful and one of the most sought after Olympic teams for their final preparations for the London Olympic Games. The arrival of athletes and officials in early July 2012 was the culmination and success of the city's partnership work over the previous four years that involved both universities, Marketing Leeds, Leeds Chinese Community Association and other partners.

The planning for the Chinese training camp had been meticulous; there had been visits to Beijing to meet with the Chinese teams and officials; there had been visits to Leeds by the Chinese teams; two chefs from the University of Leeds had spent time working in the kitchens at the Olympic training centre in Beijing to improve the skills in preparing Chinese food and lots of emails between Leeds and Beijing! The teams based in Leeds were Athletics, Boxing, Fencing, Hockey, Swimming, Table Tennis and Taekwondo. There were nearly 240 athletes and officials who trained for periods of between 4 days and nearly a month. They trained at The University of Leeds, Leeds Metropolitan University, John Charles centre for Sport, Bradford College and Wakefield Hockey Club.

There were over 50 volunteers recruited to help support the teams with translation and general support. Many of these were Chinese students recruited from the universities who had a once in a lifetime opportunity to meet with and help some of their sporting heroes!

The camp was regarded by the Chinese Olympic Committee and all the partners as a great success. There was huge media interest from China and the UK in the city while the teams were training. The stars amongst all the Chinese athletes were the Table Tennis players.

The Chinese progressively moved from Leeds to London (the final athletes leaving on August 8th, only a few days before the closing ceremony) where their Leeds based athletes went on to win 8 gold, 5 silver and 4 bronze medals, with 4 gold and 2 silver (every medal possible) coming from the Table Tennis team.

The Chinese athletes were joined by other athletes including the Netherlands swimming team, the Swedish women's football team, Tanzanian swimmers, Vietnamese gymnasts and the Canadian Wheelchair Rugby team.

All of the teams based in Leeds gave very positive feedback on their experience. With a total medal haul of 10 golds, 7 silvers and 5 bronze medals, Leeds has to be one of the most successful 'medal producing' pre Games training camp venues!

TEACHING MOVEMENT AND DANCE FOR HEALTH (TMD)

LEARNING THROUGH AND ABOUT:

- **PRACTICE**
- **SKILLS IN SUSTAINABLE EMPLOYMENT and**
- **COACHING & TEACHING**

THE TMD PROGRAMME:

Over two years students learn:

- content directly from Lishi movement and dance, a 3,000 year old Chinese culture that trains in the function and role of posture and alignment, the development of breathing skills, and the context of using energy for movement and dance.
- teaching and communication skills, models of learning behaviour, motivational interviewing and other advanced coaching techniques.

The programme is delivered by highly trained and experienced staff from Leeds Trinity University College and from the College of Chinese Physical Culture.
